COMPASSPRO® AN INSTANT RESPONSE WHEN
EVERY SECOND COUNTS

The developers of the Safeguard COMPASS® now offer –

A LIFELINE FOR FIELD WORKERS

COMPASSPRO[®] AN INSTANT RESPONSE WHEN EVERY SECOND COUNTS

Injured field workers can go without aid for hours, with the chances of fatality increasing exponentially as every minute passes. When a crisis occurs, every second counts when providing emergency care and treatment.

COMPASS Pro[®] is a streamlined emergency response service built into a non-contact voltage and current detector. Its advanced notification system is designed to warn industry users when a source is present, inform them of its approximate location, and assist them and their team in rapid emergency response the moment a crisis or SOS event is detected.

COMPASS Pro Detects:

ARC FLASH

FALLS

IMPACT TO HEAD

NO MOVEMENT

VOLTAGE & CURRENT

Questions? Contact sales@safeguardequipment.com
